OFFICE OF DIGITAL HUMANITIES

DIGITAL HUMANITIES IMPLEMENTATION GRANTS (for projects beginning September 2016)

Deadline: February 17, 2016
Catalog of Federal Domestic Assistance (CFDA) Number: 45.169

Items referred to in this document needed to complete your application:

- Budget instructions
- Budget form
- Grants.gov application package and instructions

Also see the application checklist at the end of this document.

Questions?

Contact the NEH Office of Digital Humanities (ODH) via e-mail at odh@neh.gov. Applicants wishing to speak to a staff member by telephone should provide in an e-mail message a telephone number and a preferred time to call. Hearing-impaired applicants can contact NEH via TDD at 1-866-372-2930.

Submission via Grants.gov

All applications to this program must be submitted via Grants.gov. NEH strongly recommends that you complete or verify your Grants.gov registration at least two weeks before the application deadline, since it takes time to process your registration.
System for Award Management Entity records

The Federal Funding Accountability and Transparency Act (FFATA) requires federal agencies to make information about the expenditure of tax funds available to the public. To facilitate this, the applicant organization must maintain current information in its Entity record in the System for Award Management (SAM). You must therefore review and update the information in your organization’s Entity record at least annually after the initial registration, and more frequently if required by changes in your organization’s information or another award term. In order for your organization to apply for an award via Grants.gov, receive an award, or receive payment on an award, the information in its Entity record must be current. You can update your organization’s Entity record here. You may need a new SAM User Account to register your organization or update its Entity record. NEH strongly recommends that applicants update (or, if necessary, create) their SAM Entity record at least four weeks before the application deadline.

I. Program Description

The Digital Humanities Implementation Grants program awards substantial grants to support the implementation of experimental projects that have successfully completed a start-up phase and demonstrated their value to the humanities. Such projects might enhance our understanding of central problems in the humanities, raise new questions in the humanities, or develop new digital applications and approaches for use in the humanities. The program can support innovative digital humanities projects that address multiple audiences, including scholars, teachers, librarians, and the public. Applications from recipients of NEH’s Digital Humanities Start-Up Grants are welcome.

Unlike NEH’s Digital Humanities Start-Up Grants program, which emphasizes basic research, prototyping, experimentation, and potential impact, the Digital Humanities Implementation Grants program seeks to identify projects that have successfully completed their start-up phase and are well positioned to have a major impact.

Proposals are welcome for digital initiatives in any area of the humanities. Digital Humanities Implementation Grants may involve

- the implementation of computationally-based methods or techniques for humanities research;
- the pursuit of scholarship that examines the history, criticism, and philosophy of digital culture and its impact on society or explores the philosophical or practical implications and impact of digital humanities in specific fields or disciplines; or
- the revitalization and/or recovery of existing digital projects that promise to contribute substantively to humanities scholarship or the teaching or public knowledge of the humanities. (For further information, see the question about revitalizing existing projects in the Frequently Asked Questions document, which is available on the program resource page.)
All projects must already have completed a start-up phase prior to application. The earlier phase of the project could have been supported by an NEH Digital Humanities Start-Up Grant or by another funding source. (Please see the Application and Submission Information section for more details.)

Digital Humanities Implementation Grants support full-time or part-time activities for periods ranging from one to three years. Support is available for various combinations of scholars, consultants, and research assistants; project-related travel; and technical support and services. Up to 20 percent of the total grant may be used to acquire computing hardware and software. All grantees are expected to communicate the results of their work to appropriate scholarly and public audiences.

Grantees must submit a white paper. This white paper should document the project, including lessons learned, so that others can benefit. This white paper will be posted on the NEH website. (Please see the Award Administration Information section for more details.)

All proposals will be required to include both a sustainability plan that discusses long-term support for the project and a data management plan that discusses how research data will be preserved. (Please see the Application and Submission Information section for more details.)

**Types of projects not supported**

Digital Humanities Implementation Grants may not be used for

- projects that mainly involve digitization, unless the applicant is proposing an innovative method for digitization;
- the creation or conversion of a scholarly journal (although the implementation of new modes of scholarly publication is permitted);
- recurring or established conferences or professional meetings;
- acquisition of computer equipment or software in excess of 20 percent of the grant total;
- work in the creative or performing arts;
- work undertaken in the pursuit of an academic degree;
- projects that seek to promote a particular political, religious, or ideological point of view; or
- projects that advocate a particular program of social action.

Applicants seeking to build or digitize collections, create general-use archives, or develop reference resources like dictionaries and encyclopedias should consider the Humanities Collections and Reference Resources program. Applicants seeking to address major challenges in providing access to humanities collections and resources should consider the Research and Development program. Both of these programs are offered by the Division of Preservation and Access.

Applicants seeking to create websites, mobile applications, games, and virtual environments that significantly contribute to public engagement with the humanities should consider the Digital Projects for the Public program offered by the Division of Public Programs. Applicants
seeking to implement innovative approaches to developing digital projects for the public are, however, welcome to apply for a Digital Humanities Implementation Grant.

Please contact ODH program staff if you have any questions.

**The Common Good: The Humanities in the Public Square**

NEH invites projects related to its new initiative, The Common Good: The Humanities in the Public Square. This initiative seeks to connect the study of the humanities to the current conditions of national life. Many of today’s challenges require more than ever the forms of understanding and knowledge represented by the humanities. They require the broadest possible engagement of scholars and the public with the resources of the humanities, including but not limited to the study of language, literature, history, philosophy, comparative religion, and ethics. The study of the humanities can help illuminate the complexity of many contemporary challenges while enriching our understanding of the common good.

Note that the Common Good initiative incorporates the **Standing Together** initiative, which encourages projects related to war and military service.

More information about the Common Good initiative is available [here](#).

**Protecting our cultural heritage**

In response to the destruction of cultural heritage materials worldwide, NEH encourages applications for projects that study, document, or create digital representations of lost or imperiled cultural heritage materials. Proposed projects should be based on scholarly work and follow standards and best practices. Project teams must include appropriate methodological specialists and humanities scholars. Projects must demonstrate the capacity to be sustained and must be widely accessible to the public. For more information click [here](#).

All applications will be given equal consideration in accordance with the program’s evaluation criteria, whether or not they respond to the Common Good initiative or the Standing Together initiative or focus on imperiled cultural heritage materials.

**Providing access to grant products**

As a taxpayer-supported federal agency, NEH endeavors to make the products of its grants available to the broadest possible audience. Our goal is for scholars, educators, students, and the American public to have ready and easy access to the wide range of NEH grant products. For the Digital Humanities Implementation Grants program, such products may include software code, algorithms, digital tools, reports, articles, and websites. For projects that lead to the development of such products, all other considerations being equal, NEH gives preference to those that provide free access to the public.

**II. Award Information**

Awards are for one to three years. Awards range from $100,000 to $325,000.
Cost sharing

Cost sharing consists of the cash contributions made to a project by the applicant and third parties, as well as third party in-kind contributions, such as donated services and goods. Cost sharing is not required for Digital Humanities Implementation Grants. However, applicants are welcome to use cost sharing for implementation projects in which the total budget exceeds the NEH grant limit.

Subsequent project phases

A grant from NEH for one stage of a project does not commit NEH to continued support for the project. Applications for each stage of a project are evaluated independently.

III. Eligibility

Eligibility is limited to

- U.S. nonprofit organizations with IRS tax-exempt status; and
- state and local governmental agencies and federally recognized Indian tribal governments.

Individuals are not eligible to apply.

Degree candidates may not be project directors or co-directors. Degree candidates may, however, serve in other project roles.

Project directors and co-directors may submit only one application to this program at a time, although they may participate in more than one Digital Humanities Implementation Grant project. They may also apply for other NEH awards.

When two or more institutions or organizations collaborate on a project, one of them must serve as the lead applicant and administer the grant on behalf of the others.

NEH generally does not award grants to other federal entities or to applicants whose projects are so closely intertwined with a federal entity that the project takes on characteristics of the federal entity’s own authorized activities. This does not preclude applicants from using grant funds from, or sites and materials controlled by, other federal entities in their projects.

Late, incomplete, or ineligible applications will not be reviewed.
IV. Application and Submission Information

HOW TO PREPARE YOUR APPLICATION

Application advice and draft proposals

Before submitting a proposal, applicants are encouraged to contact program officers, who can offer advice about preparing the proposal and the review process. Program officers can also review draft proposals, which are optional. Program officers’ comments on draft proposals are not part of the formal review process and have no bearing on the final outcome of the proposal, but previous applicants have found them helpful in strengthening their applications.

Program staff recommends that draft proposals be submitted at least six weeks before the deadline. Time constraints may prevent staff from reviewing draft proposals submitted after that date. Draft proposals should be submitted by e-mail attachment to odh@neh.gov.

Successful projects often incorporate multiple perspectives from a variety of disciplines, institutions, and communities.

Applicants are encouraged to examine the sample narratives from previously funded projects, which are available on the program resource page.

Your application should consist of the following parts.

1. **Table of contents**
   - List all parts of the application and corresponding page numbers.

2. **List of participants**
   - On a separate page, list all project participants and collaborators and their institutional affiliations, if any. The names on this list should match the names mentioned in the staff section of the project’s narrative description. The list should also include the names and institutional affiliations of advisory board members and of any experts who have provided letters of support. The list is used to ensure that prospective reviewers have no conflict of interest with the projects that they will evaluate.

3. **Abstract**
   - Provide a one-paragraph abstract (up to one thousand characters, including spaces) written for a nonspecialist audience, clearly explaining the project’s principal activities and its expected results. You should also copy the paragraph into the Project Information field in the Application for Federal Domestic Assistance - Short Organizational form. (Information about this form is available in the Grants.gov Instructions for Institutional Applicants document. You can find a link to that document on the program resource page.)
4. **Narrative**

The narrative should not assume specialized knowledge, and it should be free of jargon. It should clearly define technical terms so that they are comprehensible to a non-specialist audience.

Provide an intellectual justification for the project and a work plan. The narrative should not exceed ten single-spaced pages. All pages should have one-inch margins, and the font size should be no smaller than eleven point. You may use any citation style and format, as long as you use them consistently.

The narrative should address the long-term goals for the project, as well as the activities that the Digital Humanities Implementation Grant would support. Keep in mind the criteria (listed in Section V below) used to evaluate proposals.

Provide a detailed project description that addresses the following topics.

- **Enhancing the humanities**
  Provide a clear and concise explanation—comprehensible to a general audience—of the project activities and the ultimate project results, including their intellectual value to scholars, students, and general audiences in the humanities. Describe the scope of the project activities, the major issues or research questions to be addressed, and their significance to the humanities.

- **Methods and digital technology**
  Describe in detail the project approach, explaining how it is innovative. For projects that are developing new methods, techniques, or tools, describe the technologies, platforms, and standards that you plan to use and how they will help you address your central research questions. NEH views the use of open-source software as a key component in the broad distribution of exemplary digital scholarship in the humanities. If the project will not employ generally accessible open-source software, explain why and also explain how NEH’s dissemination goals will still be satisfied by the project.

  If you are requesting complete or partial funding for the development, acquisition, preservation, or enhancement of geospatial data, products, or services, you must conduct a due diligence search at the Data.gov list of datasets to discover whether the needed geospatial-related data, products, or services already exist. If not, you must produce the proposed geospatial data, products, or services in compliance with applicable proposed guidance posted at www.fgdc.gov. For further information on this requirement, please see Article 34 of the General Terms and Conditions for Awards.

- **Environmental scan**
  Provide a clear and concise summary of an environmental scan of the relevant field. The goal of an environmental scan is to take a careful look at similar work being done in the applicant’s area of study. For example, if you are developing software to solve a particular humanities problem, please discuss similar software developed for other projects and explain how the proposed solution differs. If there are existing software products that could be adapted and re-used for the proposed project, please identify them and discuss the pros and cons of taking that approach. If there are existing humanities projects that are similar in nature to your project, please describe them and discuss how they relate to the proposed...
project. The environmental scan should make it clear that you are aware of similar work being done and should explain how your proposed project contributes to and advances the field.

- **History of the project and start-up phase results**

The Digital Humanities Implementation Grants program funds projects that have already demonstrated their potential value during an earlier planning or start-up phase. Provide a concise history of the project, including previous related work, previous financial support, publications produced, and resources or research facilities available. Please describe the results of any testing or evaluation of this earlier work and provide a clear explanation of how earlier phases have positioned the project for successful execution. Describe how this implementation phase will enable the project to fulfill its goals.

If you seek to revitalize or recover an older project, describe the project’s past impact on the field as well as any planning activities that have prepared you to move forward with this new implementation phase. If you have the information, provide data documenting the project’s usage. Provide references to any earlier work (for example, by including URLs in this section of the narrative, or by providing relevant attachments in an appendix).

- **Work plan**

  - Describe the specific tasks that will be accomplished during the grant period. Identify the computer technology to be employed, and identify the staff members involved. Describe each task in some detail and include a schedule of important tasks and milestones for the length of the project.

  - Identify any risks and note how they might adversely affect the overall schedule. Describe your strategies to mitigate these risks, so as to keep the project on budget and on schedule.

  - Describe plans for evaluating the results of the project activities. These plans will typically involve people from outside your project team, for example, evaluators drawn from your intended audience.

- **Staff**

  Identify the project director and collaborators who would work on the project during the proposed grant period and describe their responsibilities. Explain how their technical competency and humanities qualifications will enable them to fulfill these responsibilities. Project directors must devote a significant portion of their time to their projects. List all persons directly involved in the conduct of the proposed project (whether or not their salaries are paid from grant funds), indicate their anticipated commitments of time, and explain the reasons for and nature of their collaboration.

  If the project has an advisory board, provide a statement of its function here and the board members’ names in the list of participants section of the application. Include the board members’ résumés in the résumés section of the application, which is discussed below.
• **Final product and dissemination**
  Describe the plans to disseminate the project results through various media (printed articles or books, presentations at meetings, webinars or training sessions, electronic media, or some combination of these). Explain how your white paper will detail the activities of the project and discuss its usefulness to the field.

Projects developing new software are encouraged to make the software free in every sense of the term, including the use, copying, distribution, and modification of the software. Open-source software or source code should preferably be made publicly available through an online repository such as [SourceForge](http://sourceforge.net) or [GitHub](https://github.com). Software should be thoroughly documented to promote its reuse.

5. **Sustainability plan**

Prepare a sustainability plan for your project. This plan should discuss the long-term financial needs of the project and show how the project will continue to be able to meet its goals after the grant has ended. The plan must address potential institutional support or future funding streams necessary to allow the project to thrive beyond the grant period. The content of the plan will, of course, vary, depending on the activities being undertaken during the grant period. You may wish to consult the NEH-funded Ithaka report [Sustaining Digital Resources: A Briefing Paper for Leaders of Projects with Scholarly Content](http://www.ithaka.org) (PDF) for tips on putting together your plan. The plan may not exceed three pages.

6. **Data management plan**

Prepare a data management plan for your project (not to exceed two pages). The plan should describe how your project team will manage and disseminate data generated or collected by the project. For example, projects in this category may generate data such as software code, algorithms, digital tools, reports, articles, research notes, or websites. For further guidance on the content of this plan, please see Data Management Plans for NEH Office of Digital Humanities Proposals and Awards. (A link to this document is available on the program resource page.)

7. **Project budget**

Using the instructions and the sample budget, complete the budget form (MS Excel format) or a format of your own that includes all the required information. You can find links to the budget instructions, budget form, and sample budget on the program resource page.

All project directors will attend a planning meeting at the NEH offices in Washington, D.C. Directors should budget accordingly for a one-day meeting in the first year of the requested grant period.

If the applicant institution is claiming indirect costs and it already has a federally negotiated indirect-cost rate agreement, submit a copy of its current federally negotiated indirect-cost rate agreement. Do not attach the agreement to your budget form. Instead you must attach it to the Budget Narrative Attachment Form (also known as the Budget Narrative File). (See the instructions for this form in the Application Checklist at the end...
of this document.) Alternatively, you must attach a statement to the form, explaining a) that the applicant institution is not claiming indirect costs; b) that the applicant institution does not currently have a federally negotiated indirect-cost rate agreement; or c) that the applicant institution is using the government-wide rate of up to 10 percent of the total direct costs, less distorting items (including but not limited to capital expenditures, participant stipends, fellowships, and the portion of each subgrant or subcontract in excess of $25,000).

**Budget narrative**

Include a brief narrative supplement to the budget, explaining projected expenses or other items in the financial information provided on the NEH budget form. The budget narrative may be single-spaced.

Applicants are advised to retain a copy of their budget form.

**8. Résumés**

Include brief (two-page) résumés for each of the principal project participants, as well as members of the advisory board.

**9. Letters of commitment and support**

Include letters of commitment from participants and cooperating institutions. Note that the project director does not need to provide a letter of commitment.

You may also include up to two letters of support from experts who are not directly involved in the proposed project but can speak to its value to the field or to the appropriateness of the proposed methodology or the technical plan. For more information about letters of support, see the Frequently Asked Questions document, which is available on the program resource page.

**10. Appendices**

If applicable, include an expanded work plan, a bibliography or list of works cited, use cases, wireframes, screen shots, or other project schematics. Include as well relevant materials from the project’s start-up phase—for example, evaluation reports that help explain the project’s potential, initial results, or significance. Materials in this section may not exceed ten pages.

**HOW TO SUBMIT YOUR APPLICATION**

You must submit your application to Grants.gov. You can find links to the Grants.gov application package and instructions for preparing and submitting the package on the program resource page. Be sure to read the document (PDF) that explains how to confirm that you successfully submitted your application.
Deadlines

Program staff recommends that draft proposals be submitted at least six weeks before the deadline. Time constraints may prevent staff from reviewing draft proposals submitted after that date.

**Applications must be received by Grants.gov on or before February 17, 2016.** Grants.gov will date- and time-stamp your application after it is fully uploaded. Late applications will not be reviewed.

V. Application Review

Evaluators are asked to apply the following criteria:

1. The intellectual significance of the project for the humanities, including its potential to enhance research, teaching, and learning in the humanities.
2. The quality of innovation in terms of the idea, approach, method, or digital technology, and the appropriateness of the technology employed in the project.
3. The quality of the conception, definition, organization, and description of the project and the applicant’s clarity of expression.
4. The feasibility of the plan of work, including whether the project would be ready to be implemented by the close of the grant period and whether the activities would significantly contribute to the project’s long-term goals.
5. The qualifications, expertise, and levels of commitment of the project director and key project staff or contributors.
6. The reasonableness of the proposed budget in relation to anticipated results.

Review and selection process

Knowledgeable persons outside NEH will read each application and advise the agency about its merits. NEH staff comments on matters of fact or on significant issues that otherwise would be missing from these reviews, then makes recommendations to the National Council on the Humanities. The National Council meets at various times during the year to advise the NEH chairman on grants. The chairman takes into account the advice provided by the review process and, by law, makes all funding decisions. More details about NEH’s review process are available here.

VI. Award Administration Information

Applicants will be notified of the decision by e-mail in August 2016. Institutional grants administrators and project directors of successful applications will receive award documents by e-mail in September 2016. Award documents will identify the relevant terms, conditions, and administrative requirements that pertain to successful applications. The Grant Management section of the NEH website outlines all the responsibilities of award recipients, including anti-lobbying restrictions, in great detail. Applicants may obtain the evaluations of their applications by sending an e-mail message to odh@neh.gov.
Grantees will be required to submit a white paper, which will be due within ninety days after the end of the grant period. This white paper should document the project, including lessons learned, so that others can benefit. The white paper will be posted on the NEH website.

VII. Points of Contact

If you have questions about the program, contact the ODH staff at odh@neh.gov. Applicants wishing to speak to a staff member by telephone should provide in an e-mail message a telephone number and a preferred time to call.

If you need help using Grants.gov, refer to

Grants.gov: http://www.grants.gov/
Grants.gov help desk: support@grants.gov
Grants.gov support line: 1-800-518-GRANTS (4726)

VIII. Other Information

Privacy policy

Information in these guidelines is solicited under the authority of the National Foundation on the Arts and Humanities Act of 1965, as amended, 20 U.S.C. 956. The principal purpose for which the information will be used is to process the grant application. The information may also be used for statistical research, analysis of trends, and Congressional oversight. Failure to provide the information may result in the delay or rejection of the application.

Application completion time

The Office of Management and Budget requires federal agencies to supply information on the time needed to complete forms and also to invite comments on the paperwork burden. NEH estimates that the average time to complete this application is fifteen hours per response. This estimate includes time for reviewing instructions, researching, gathering, and maintaining the information needed, and completing and reviewing the application.

Please send any comments regarding the estimated completion time or any other aspect of this application, including suggestions for reducing the completion time, to the Chief Guidelines Officer, at guidelines@neh.gov; the Office of Publications, National Endowment for the Humanities, Washington, D.C. 20506; and the Office of Management and Budget, Paperwork Reduction Project (3136-0134), Washington, D.C. 20503. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB number.
APPLICATION CHECKLIST

□ Verify and if necessary update your institution’s Entity record, or create an Entity record for your institution, at the System for Award Management (SAM). Complete at least four weeks before the deadline.

□ Verify your institution’s registration or register your institution with Grants.gov. Complete at least two weeks before deadline.

□ Download the application package from Grants.gov. The program resource page on NEH’s website has a direct link to the package. You can also search Grants.gov for this program. (Note that Grants.gov tells you to download the “application instruction” as well as the “application package.” The “application instruction” is this document, so there’s no need to download it.) The program resource page also has a direct link to the instructions for completing the package.

□ Complete the following forms contained in the Grants.gov application package.

1. Application for Federal Domestic Assistance - Short Organizational
2. Supplementary Cover Sheet for NEH Grant Programs
3. Project/Performance Site Location(s) Form
4. Attachments Form—Using this form, attach the parts of your application as described in the guidelines:
   - ATTACHMENT 1: Table of contents (name the file “contents.pdf”)
   - ATTACHMENT 2: List of project participants (name the file “participantslist.pdf”)
   - ATTACHMENT 3: Abstract (name the file “abstract.pdf”)
   - ATTACHMENT 4: Narrative (name the file “narrative.pdf”)
   - ATTACHMENT 5: Sustainability plan (name the file “sustainability.pdf”)
   - ATTACHMENT 6: Data management plan (name the file “datamanagement.pdf”)
   - ATTACHMENT 7: Budget and budget narrative (name the file “budget.pdf”)
   - ATTACHMENT 8: Résumés (name the file “resumes.pdf”)
   - ATTACHMENT 9: Letters of commitment and support (name the file “letters.pdf”)
   - ATTACHMENT 10: Appendices, if any (name the file “appendices.pdf”)
5. Budget Narrative Attachment Form (also known as the Budget Narrative File)—Using this form, attach only a copy of your institution’s current federally negotiated
indirect-cost rate agreement (or an explanation why you are not attaching such an agreement). (See the Grants.gov instructions for institutional applicants, which are available on the program resource page, for additional information.)

Your attachments must be in Portable Document Format (.pdf). We cannot accept attachments in their original word processing or spreadsheet formats. If you don’t already have software to convert your files into PDFs, many low-cost and free software packages will do so. You can learn more about converting documents into PDFs here.

**Upload your application to Grants.gov.** NEH strongly suggests that you submit your application no later than 5:00 p.m. Eastern Time on the day of the deadline. Doing so will leave you time to contact the Grants.gov help desk for support, should you encounter a technical problem of some kind. The Grants.gov help desk is now available seven days a week, twenty-four hours a day (except on federal holidays), at 1-800-518-4726. You can also send an e-mail message to support@grants.gov.

Be sure to read the document (PDF) that explains how to confirm that you successfully submitted your application.
