Infrastructure and Capacity Building Challenge Grants

Office of Challenge Programs

The purpose of the program is to strengthen the institutional base of the humanities by enabling infrastructure development and capacity building. Awards of federal matching funds aim to help institutions secure long-term support for their core activities and expand efforts to preserve and create access to outstanding humanities materials. The program supports two distinct types of projects, each with its own Notice of Funding Opportunity:

- Capital Projects support the purchase, design, construction, restoration, or renovation of facilities for humanities activities. This includes costs related to planning as well as the purchase and installation of related moveable and permanently affixed equipment for exhibiting, maintaining, monitoring, and protecting collections (whether on exhibit or in storage), and for critical building systems, such as electrical, heating ventilation and air conditioning, security, life safety, lighting, utilities, telecommunications, and energy management.
- Digital Infrastructure supports the maintenance, modernization, and sustainability of existing digital scholarly projects and platforms.

Grant Snapshot

Maximum Total Project Costs	\$300,000	\$2,000,000	\$5,000,000

Developing Your Application

Involve the whole team in the planning and grant writing process.

Include detailed information about long-term strategic planning, fundraising efforts, previous large-scale digital or capital projects, and how the outcomes and deliverables will benefit your institution, humanities research, and/or the public.

If it is a part of a larger project, think about which part might be the most appropriate for NEH support.

Important Considerations: Humanities Significance

How will your project promote or advance the humanities?

Who is your audience, and how will they benefit from the outcomes of the project over the long-term?

If your organization has a range of functions (an arts center or theatre, for example) what specific *humanities* activities will be supported through your proposed project?

Important Considerations: Project Scope

Is your project part of a larger initiative? If so, which *specific* activities will be supported through this grant and matching funds?

How does your proposed project align with institutional strategic plans and long-term goals?

What are the deliverables and/or outcomes of the project?

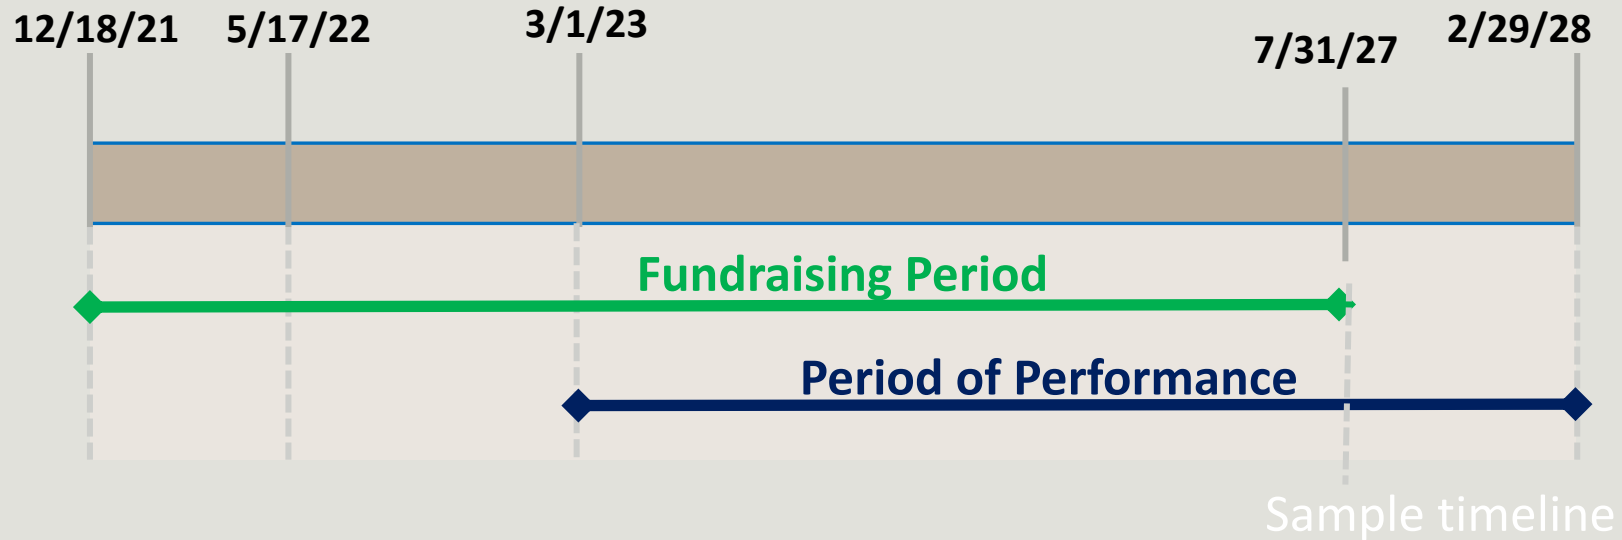

Important Considerations: Project Timeline

Do the dates on your workplan, budget, and period of performance align?

Have you allowed sufficient time for fundraising, project planning, and compliance with any applicable federal, state, or local regulations?

Project Timelines

Fundraising Period: The period five months prior to the application deadline (December 18, 2021) through the final certification deadline within the period of performance, in which recipients may raise and certify funds in order to receive NEH matching funds.

Period of Performance: The period in which the project work is being performed and allowable costs may be incurred and charged to the award.

The workplan included with your application should reflect plans for both fundraising and project activities.

Important Considerations: Fundraising Capacity

Does your application include a detailed plan for raising the required match?

Who will be responsible for fundraising?

Refer to NEH Administration of Challenge Grants guidance at:
www.neh.gov/grants/preservation/infrastructure-and-capacity-building-challenge-grants

Eligible Applicants

U.S. nonprofit organizations with 501(c)(3) tax-exempt status

Accredited public and 501(c)(3) higher education institutions

State and local governmental agencies

Federally recognized Native American tribal governments

Must work wholly or in part in the humanities

Other Eligibility Information

You are limited to submitting a single application per calendar year.

Previous recipients of Challenge Grants may reapply for a subsequent Challenge Grant after the submission of their final financial report for their most recent Challenge Grant. (This applies to Infrastructure and Capacity Building Challenge Grants (CHA), Challenge Grants (CH), Cooperative Agreements and Special Projects (ZZ), and Special Initiatives (CZ) recipients).

All application materials must be completed and received by the deadline. If multiple applications are received for the same project, only the most recent submission will be reviewed.

Preparing Your Application

All applications must include:

- Project narrative (10 pages)
- Budget (SF-424C)
- Budget justification
- Work plan
- Institutional profile
- Resumes for key personnel
- Letters of commitment or support

Capital Projects should also include:

- Planning and design documents (recommended)
- Site conditions

Digital Projects should also include:

- Data management plan
- Sustainability plan

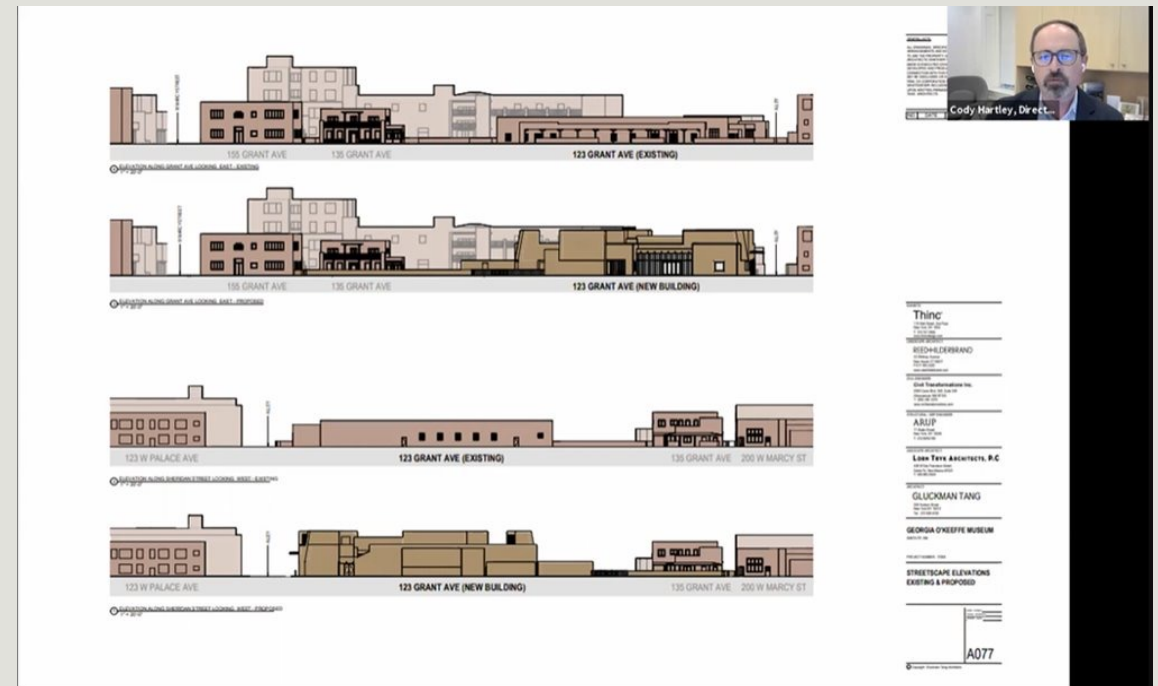

Pay close attention to page limits, formatting, and required attachments. Applications that do not meet the stated guidelines may be declared ineligible.

Please see the Notice of Funding Opportunity for a complete list of required, conditionally required, and recommended application elements
